

**SW15 CAPACITOR
DISCHARGE STUD
WELDER**

FEATURES:

- Micro Processor Controlled with Energy Saving Technology
- Dual Voltage 230/110 volt automatic change
- Studs from M3 to M8 in aluminium, stainless, brass, mild steel and Galvanized Steel
- High duty, 20 studs per minute (M4)
10 studs per minute (M8)
- Generator safe +/- 15 %
- European Manufacture with 12month warranty

Voltage	Single Phase 230v/110v
Max Input Power	0.4KW
Max Input Amps	4A (230v) – 8A (110v)
Dimensions	380 x 190 x 400mm
Weight	13.5kg
Part Number	DECA-275900
