

Telford Group helps raise funds for Team Benji

Staff members from the Telford Group Ltd have taken part in a fundraising campaign for local Shropshire charity Team Benji.

The company has contributed to the £70,000 raised by Team Benji to support two nominated organisations - the Birmingham Children's Hospital and Children with Cancer UK.

Team Benji is a group of cyclists who cycled from London to Paris in just three days in honour of the brave boy who is battling cancer. Benjamin Crawford, known as Benji, had been at football training when his right leg gave way. After a biopsy and scans he was diagnosed with Osteosarcoma, the most common type of primary bone cancer in children and young people.

Benji was then transferred to Birmingham Children's Hospital. A spokeswoman for the charity said: "We are very pleased to report that Benji is doing extremely well. He is now walking again and can even ride his bike.

"His chemotherapy is due to finish in early October, he is then due to have an operation to lengthen his leg."

The Telford Group has a comprehensive stock of workshop equipment and welders for sale and hire.

Equipment available includes Tig Welders, Arc Welders, Plasma Cutters, Metal Sawing Machines, Industrial Power Tools, Welding Consumables and much more.

There is still chance to contribute to Team Benji. Go to <http://uk.virginmoneygiving.com/fundraiser-web/fundraiser/showFundraiserProfilePage.action?userUrl=TeamBenji>
